## READING

### Advice for long life

Nobody knows how long they will live for. There are a few things you can do to give yourself a chance of a longer life. The first is to be careful what you eat. Don't eat too much red meat. People who eat fruit, vegetables and fish live longer than meat eaters. Secondly, stay active. The fitter you are, the better your body and brain works. And if your body works well, you stay well for longer. Finally stay away from tobacco. It is not just a bad habit. It is a poison that will kill you. And if you drink alcohol, drink only a little.

Complete the notes

Do:

be (31) careful what you eat

eat (32) fruits, vegetables, fish

(33) stay active

Don't:

eat too much red (34) meat

smoke or drink a lot of (35) alcohol
